MEMORANDUM FOR: NSA/TCO

ATTENTION :

THROUGH :

SUBJECT : Radar Site, Pei Hai, China

REFERENCE : NSA Requirement  
(NPIC Project N 974-64)

25X1A

1. This memorandum is in answer to your requirement which requested a re-examination of a radar installation at Pei Hai, China (21-27N 109-08E).

2. Mission [ ] is the only coverage available for this site. The initial scan that was made of the installation noted two SCR-270-type radars (NPIC/R-1297/64). A further detailed analysis confirms that the site contains two radars, but only one can be positively identified as an SCR-270 type. The second radar appears to be different and although not able to be positively identified, it is believed to be a Tachi-18.
